
Ari Menu responsive

Posted by rudic - 2018/09/24 09:03

Hi,

Is it possible to have the menu responsive when reducing the width of the screen to a mobile phone size?
Or perhaps make it swop to a vertical menu when screen width are less than 400px or something?

Many Thanks for the great menu

Hello,

Sorry, but the extension doesn't support this ability.

Regards,
ARI Soft
