
SUB-SUB menu is not correctly displayed

Posted by emag - 2010/08/23 07:33

Hi,

I've have an issue when I create a sub menu of a sub menu. The sub menu appear on the screen but far away from the parent sub-menu.

Thanks for your help

This problem with site template styles. Open /templates/ja_purity/css/ja-sosdmenu.css file and comment or remove the next CSS rule:

```
#ja-mainnav li ul ul {  
    margin:-42px 0 0 200px;  
}
```
