
How to remove \"|\" character from menu display?

Posted by coco - 2010/08/30 03:48

Hello

There is a | character in between each menu item and I wish to remove this.
How can I modify the menu for it to not have this?

Thank you very much!

Hello,

Add the following CSS rule:

```
#pillmenu .yuimenuubar li
{
  background-image: none;
}
```

Regards,
ARI Soft
