Menu and submenu size losted by chakki - 2010/09/01 14:43
fi!
have a site
abor-vl.ru and installed your menu.
But some of the things in sub menu are smaller than I want to have them, how to fix the menu wight?
Also have 4 same templates and same problem with all. Tried all things your offered with css but no luck.
hank u!

dello,
Sorry, but the module doesn't provide this ability.
