Hi all!
I have one question, which CSS file responsible for menu editing?
For example, if i need to change menu width, which CSS rules i need, and where i should put it?

P.S sorry for my English, i'm from Latvia :)

Hello,

The module uses the following CSS file:

/modules/mod_ariextmenu/mod_ariextmenu/js/css/menu.min.css

Regards,
ARI Soft
