
How I can remove the bullets in the vertical menu?

Posted by francosa - 2010/09/30 13:02

Tried unsuccessfully to remove the cartoons that appear in the vertical menu.
I wonder how I can achieve remove bullets.

Add the following CSS rule:

```
div.moduletable .ux-menu-container .ux-menu li
{
    background-image: none;
    padding: 0;
}
```
