Blue Arrow

Posted by mattDirt - 2010/10/03 23:01

_____

Hi!
Love the module!
I read all the forums before I posted and I couldn't find an answer. How do I remove the blue arrow to the right of the menu when I have a sub-item. Can I do it in the module CSS area or do I have to modify the backend code?
Thanks!

_____

Hello,

Blue arrow is shown at the right side. You can see it on our demo site. If it isn't shown properly it can be conflict with site template styles and we can help if you provide link to page where we can see the menu.

Regards,
ARI Soft

_____

Hi,
Thanks for the prompt response.
Here is a link the site I am using the module

xxxxxxx

As you can see I only have one of the links (Sales & Events) using the drop down menu and it seems to be messing with the alignment.

1) Is there a way to fix the alignment on that one cell
2) Can I swap the blue arrow with a transparent gif so that it doesn't appear?

_____

You can use the next CSS rule that remove blue arrow:

.ux-menu SPAN.ux-menu-arrow
{
  display: none;
}

_____

You can edit the following image:

\modules\mod_ariextmenu\mod_ariextmenu\js\css\images\menu-arrow-right.png

_____

.ux-menu SPAN.ux-menu-arrow

```
{
  display: none;
}
```

I have done this and the arrow is removed, however the space is still there! How do I remove the space

_____

Hello,

Add the following CSS rule:

```
UL.ux-menu a.ux-menu-link-parent
{
  padding-right: 14px;
}
```

Regards,
ARI Soft
