## Sub Sub Menu (Horizontal) Alignment

Posted by scholarDave - 2010/10/20 09:08

---

Not sure what I've done but the sub sub menu is appearing a long way from the sub menu.

[www.astorict.org.uk/joomla](http://www.astorict.org.uk/joomla)

See 'Learning Zones' then 'Languages and Social Science' ...the next menu appears detached from the drop down.

Hello,

This problem with site template styles. Add the following CSS rule:

```
#navbar .ux-menu li ul ul
{
    margin: 0;
}
```

Regards,  
ARI Soft
