
Background of selected or active page

Posted by deon_jonker - 2010/10/21 08:59

Hi,

I'm trying to figure out how to change the background of the selected page in the menu.

Let me explain:

I have the menu set up and linked to different articles/pages. What I want to do is, I want to change the menu item's background to something else once that page connected to the selected menu item is displayed.

Thanks

PS: I am developing on my localhost.

Try the following CSS rule:

```
UL.ux-menu LI A.current
{
    background: red none;
}
```

Regards,
ARI Soft

Thank you.
It worked! :)
