
Space between menus

Posted by crudi - 2010/10/25 05:30

I use the ari ext menu on <http://ultrabio.sdhv.de/de/produkte.html>

Is it possible to get some space between the both menu boxes?

Hello,

Try to add the following CSS rule:

```
.ux-menu-container .ux-menu LI.ux-menu-item-parent
{
    padding: 0 5px;
}
```

Regards,
ARI Soft
