
Getting the tabs to slide upwards

Posted by Rekviem - 2010/11/05 14:49

Hi!

This might seem wierd but I want the menu to have the tabs slide upwards and not downwards (kinda ironic as its called a dropdown menu).

The thing is: Im making a menu fixed at the bottom of the page and I therefor I cannot have them sliding downwards.

Is there anyway for me to do this?

Thanks in advance! :)

Hello,

No, the module doesn't provide this ability. "ARI YUI Menu" module provides this possibility.

Regards,
ARI Soft
