_____

Hello,

i just wanted to test the menu to see how i would look on my website but the submenu is cut off at the bottom.

the link to the page

http://dsdesign.eu/trigon/index.php?option=com_content&view=article&id=52&Itemid=56&lang=nl

For example in the submenu of accessories there are 13 sub items and he only shows 4

also i am using template 26701 bought on monster template

thank you

Hello,

This problem with site template styles. Add the following CSS rule that fix it:

body #wrapper .width
{
  overflow: visible;
}

Regards,
ARI Soft
