## Successesful use of the ARI Ext Menu

Posted by decorientale - 2010/11/12 23:38

---

Thanks to this topic (some tunning,custom css and other stuff are already explained, so use search to find them) , and the reactivity of the ARI Staff, I succeed on first try . Awesome work from Ari Soft.  
The menu can be seen on work here (NOS PRODUITS), and also the Pretty Photo Mod for image gallery.

Hello,

Thank you for a good sample of styling menu.

Regards,  
ARI Soft
