## Adding a border around the buttons

Posted by Hosh - 2010/11/19 13:35

---

So here's the problem. (See attached picture)

<http://www.plaatjesupload.nl/bekijk/2010/11/19/1290160622-450.png>

I know it's a very poor quality paint ;)

So how do I do this? Thanks in advance :)

Hello,

Add the following CSS rule:

```
.ux-menu-container
{
    border: 1px solid green;
}
```

Looking way better now!

Yet now I have a border around the entire menu, and not in between the buttons. Anyway to accomplish this?

Add the next CSS rules:

```
.ux-menu-container .ux-menu-horizontal LI A
{
    border-left: 1px solid green;
}

.ux-menu-container .ux-menu-horizontal LI .ux-menu-sub A
{
    border-left: 1px solid #E3DAD1;
}

.ux-menu-container LI A.ux-menu-link-first
{
    border-left-style: none;
}
```

Worked! Awesome thanks man :)

I just noticed however that on the left side next to "nieuws" (view here: <http://tharde.com/> ) there are a few pixels margin. The menu is shorter then the header there...any suggestions?

Sorry for wasting your time :unsure:

This padding is defined in your site template. Use the following CSS rule that avoid it:

```
#panel_container div.search_container
{
    padding: 0;
}
```
