
Another Behind module

Posted by timi11 - 2010/11/24 07:36

Hey, first Thanks for your exelent Support. Great!

My Question, it is another Problem with the Menu Tabs to display in the right Way.

See it here with the Module

Thanks a lot...

Hello,

Use the next CSS rules:

```
body .art-contentLayout .art-sidebar1 {  
  z-index: 2;  
}
```

```
body .art-contentLayout .art-content {  
  z-index: 1;  
}
```

Regards,
ARI Soft
