
Sub menus are behind another module [SOLVED]

Posted by orangeSoda - 2010/11/30 17:00

The sub menus are behind another module only in IE, in Firefox it works great. Please help! attached you'll find the template's css file. Many thx <http://www.ari-soft.com/images/fbfiles/files/templateCss.txt>

Set "wmode" attribute of Flash object which is used on this page to "transparent" instead of "window".

Regards,
ARI Soft
