## Formatting the menu, different side

Hi, great job btw

Right now, the drop-down menu slides down from the left edge of the parent element which is fine for my menu on the left but I also have a 2nd menu on the right (damn designers!) and I would really love to found out how to make the menu drop from the right edge of the parent menu, toward the inside of the website's body rather than outside

I appreciate your help

Thank you

Hello,

Sorry, but the module doesn't provide this ability.

Ok... I'll do it on my own then,

thanks!
