
submenus not showing

Posted by dyerry - 2010/12/07 04:53

I know that this has been asked many times, but, I observed that the solution depends on what template is being used, that's why I am asking again.

I am using university template and I can't seem to find the solution in showing the submenus.

Attached is the template.css I am using.

Thanks in advance for your help <http://www.ari-soft.com/images/fbfiles/files/template-bb0a31adda247c16dd460379e1743d17.zip>

please ignore my first query, I have already found the solution. I would just to share it just in case someone is also using this template.

```
from
#s5_leftcolumn {
padding-right:13px;
float:left;
left:-50%;
overflow:hidden;
position:relative;}
```

to

```
#s5_leftcolumn {
padding-right:13px;
float:left;
left:-50%;
overflow:visible;
position:relative;}
```
