## Current item and hover width are shorter

Posted by Cgull - 2010/12/08 15:04

---

Hello,

I am new to Joomla and your menu was recommended to me.

It is very nice, and thank you for your great work, but I'm struggling with the styling.

My site is not online yet, so if you'll be able to answer me only if it is, I will upload it.

My problem is with the current menu item or when hovering over an item, it is ending before the left border.

I'm attaching an image to show what I mean.

Can you help or should I upload the site?

Thank you,

Sigal <http://www.ari-soft.com/images/fbfiles/images/menu-9710da4c28abbcf75a0bf57815dc3698.jpg>

Hello,

It can be a conflict with site template styles and we need to see the menu on your site that we can investigate this problem and try to help.

Hi,

Thank you for such a quick reply.

It took me a few hours to upload the site online, but now it is there:

---

Add the following CSS rule to site template CSS file:

---

```
.ux-menu LI
{
margin-left: 0;
}
```

Works like a charm.

You are a group of Angels there.

Thank you very much :)
