
Menu width

Posted by d3ckon - 2010/12/13 12:44

Hello! i found your menu very attractive! congratulations for the good work!! i have the same problem with some others that used it!! my menu is having problem with the width in every tab..

i tried some of the solutions that you provided to the other users but didn't worked..

Example

this is the site I'm working to.. i hope you don't have problem with the Greek language

Hello,

Set "Auto width" parameter to "Yes".

Regards,

ARI Soft
