Use the template image background menu
Posted by ScaleChan - 2010/12/17 07:49
_____

I have downloaded the ARI Ext Menu. It is very great and useful!! I would like to ask the question about how can I use the template image background for the menu???

My testing site is http://asbroadcast.cloudaccess.net/.

Thank you very much.

_____

Hello,

Add the following CSS rule to "CSS Styles" parameter in module settings:

#pillmenu .ux-menu a
{
 background: transparent;
 background-image: url(templates/rhuk_milkyway/images/mw_menu_normal_bg.png);
}

Regards,
ARI Soft

_____

Thank you your quick response.
Would you please provide the CSS for menu and sub-menu separately?
And, I found there are some line on the image. How can I delete it?

Thank you very much.

_____

Please see the below image.
I want the "Audio" and "Adapter" background image is different with "Testing Pop up".
And, can you see that the background image of "Testing Pop up" menu is not match with menu bar. How can I fix it, please?

http://www.ari-soft.com/images/fbfiles/images/example.png

Too many questions.... :blush:
Thank you very much.

Sorry, one more questions.
Can the down arrow ("Testing Pop up" one) be deleted, please?

_____

Use the following CSS rules:

```
/* background of sub-menus */
#pillmenu .ux-menu .ux-menu-sub a
{
  background-image: url(templates/rhuk_milkyway/images/mw_menu_normal_bg.png)
}

/* hide arrow */
#pillmenu .ux-menu LI.ux-menu-item-main>A>.ux-menu-arrow
{
  display: none;
}

/* fix menu position */
#pillmenu .ux-menu-container
{
  margin-top: -1px;
}
```
