Hi,

On my web site,

Only the top part of submenus are visible as the bottom side is hiding behind the menu box itself,

Could you please advice?

Here is the website address:

Alive Trading

FYI, I am also using the below CSS code:

```
body DIV DIV.ux-menu-container UL.ux-menu,
body DIV DIV.ux-menu-container UL.ux-menu UL.ux-menu-sub
{
margin: 0;
}
```

```
body DIV DIV.ux-menu-container UL.ux-menu LI
{
margin: 0;
padding: 0;
overflow: visible;
padding-left: 0;
margin-bottom: 0;
}
```

```
#ja-content,
#ja-current-content
{
overflow: visible;
}
```

Hello,

Use the following CSS rules:

```
body #gk-left,
body #gk-left .column
{
overflow: visible;
}
```
