
making the ari ext menu wider

Posted by chriske81 - 2014/09/01 10:41

Hi, im building a joomla 3 website i have install the ARI menu module but the width is 110px but i want dees to 185 px but i can find where to do this?
please can you help me. this is the website link <http://lechocolataartselaar.be/>
