## Display number problem

Posted by kkshansid - 2011/04/09 11:30

---

hi

i am using ARIQIZLITE on local host joomla 1.5

Display number doesn't work properly

Display all gives blank result in all sections

also on change event of display number is not working properly.on changing display number it displays quiz category list.

I reinstalled components but problem still exists

Kindly help me how to correct that

Thanx in advance

Hello,

What you mean under "display number"?

Regards,

ARI Soft

in all sections

near footer Display # then a combo box with options(5,10,20,---,all)

We can't reproduce the problem. We can investigate the problem if you upload your site to an online server and provide temporary access to Joomla! backend or create site backup with help "Akeeba Backup" extension and send it by email.
