
Choice label

Posted by Rolled - 2011/08/20 22:15

Hi,

I hope my last question ;-)

I would prefer not to see the "Choice label" incl. the number (1/2/3) on the frontend?

I would prefer to see:

- ☐ Yes
- ☐ No

Instead of:

Choice 1 ☐ Yes

Choice 2 ☐ No

Is this possible?

Thanks for your Help!

Kind regards

Roland

Hello,

You can modify question templates files. It is located the next path:

`\components\com_arquizlite\view\questions\`

I have found the file for removing Choice 1 and Choice 2, have it in a text editor but have no idea what I would delete to remove Choice 1 and Choice 2 (Single answer template). Here's the code. If you would please tell me what to delete to just remove the labels Choice 1 and Choice 2 (without also removing the radio buttons), I would greatly appreciate it. Thanks.

Hello,

Delete the next code:

Re:Choice label

Posted by sanatsivdas - 2012/08/27 08:23

Thanks. Now, I'm trying to delete the Label.Question. I was able to delete it but when it was deleted the Save and the question count shifted to the far right while the actual question on the page shifted to the left. I liked the question shifting to the left but not with the Save and question count shifting to the far right. Can I delete the Label.Question without causing the Save the question count to shift to the far right?

Thanks again.
