Hello,

Could you provide a link to a page where we can see the problem and provide temporary access to your J! backend by email so we could investigate the issue.

Regards,
ARI Soft

In this case it is hard to investigate the issue. It seems a user logged out if they see described message. It can be a conflict with a 3rd party extension.

User is not logged out.

There are many Quizzes, but this problem appears consistently on one of the Quiz for one particular user. But for another user he didnot face such problem on this quiz.
