HI

I've just downloaded the ARIQUIZlite zip file.

At the end of the installation I get 2 messages :

- 1 : installateur composant succes (My Joomla is the 1.15.24 french language)
- 2 : XML Parsing Error at 1:14. Error 30: XML declaration not well-formed

If I open the component I get the same nÂ° 2 error message : XML Parsing Error at 1:14. Error 30: XML declaration not well-formed

What did I do wrong

thank you for help

Michel Rottenberg

Hello,

Try to change WYSIWYG editor or disable it.
