The Help explains how to create questions under "9 Questions Management".
But "Questions Management" is nowhere to be found on the menu or I miss it somewhere?
I already created Quiz and Quiz categories.
This is the menu I see:
* Quizzes * Quiz Categories * Question Categories * Question Templates * Text Templates * Quiz Results * Languages * Languages * Languages Frontend * Templates * Help * F.A.Q. * About
Suggestions? I would appreciate
Re:Cannot create questions? Posted by admin - 2009/09/10 15:36 Hello, Open 'Quizzes' page on the component backend and click 'View' link in 'Questions' column in quizzes data grid. Regards, ARI Soft

ItÒ's very hidden indeed.
Thanks!
