## Email Subject Line

Posted by mlewis71 - 2012/02/28 00:31

---

I would like to include the quiz name and the user's name in the subject line of the email notification. For example, "Test Name" Quiz Results for "User's Name"

Is this possible?

ML

Hello,

It requires custom modification, see "\_sendResultToAdmin" and "clickEmail" methods in \components\com\_ariquizlite\frontend\_pages\quiz\_finished.php file or it is possible to use "ARI Quiz" extension. It supports "Mail templates" and provides ability to edit mail subject.

Regards,  
ARI Soft
