
How I can show result test on page

Posted by serj - 2009/11/12 13:08

Good day, I use Ari Quiz Lite. Test run very good, but result don't show. I saw in property quiz there is only send to email and tamplate. I choosen both and result the same.

Secod question why needs the follow module:

user result

top result

results

top user results

fanks, serj

Hello,

Select 'Failed Template' and 'Successful Template' in quiz settings for showing results. Regarding modules:

results: shows N results of last passed tests

top results: shows N best results of passed tests

user results: shows N results of last passed tests for logged user

user top results: shows N best results of passed test for logged user

Regards,

ARI Soft

hi!

I have a question

I installed the component ARI Quiz lite

configured test set: display the result in the successful delivery and successful completion

Now pass the test, and the result shows 0

the problem?

help me

test gives a result:

Quiz Result

Result : 0 / 4

Percentage : 0.00 %

Passed : no passed

Start Date : 2010-06-23 04:48:55

End Date : 2010-06-23 04:49:07

Spent Time : 12 A5:
Passed Percentage : 50.00 %

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?

Regards,
ARI Soft
