
Joomla 2.5 Version

Posted by Trister - 2012/06/14 16:58

I saw this extension on Joomla and it shows to be compatible with 2.5. But all I see is a download for 1.5. Where is the download for 2.5?

Hello,

"ARI Quiz Lite" is compatible with Joomla! 2.5, "Joomla 1.5+" means the extension supports Joomla! 1.5, 1.6, 1.7 and 2.5.
