ARI Quiz Lite problem Posted by adam.maxwell - 2012/09/26 07:18
I have installed ARI Quiz Lite into my site and the link to the quiz works fine, but when I click the 'continue button' I get this error
The page isn't redirecting properly
Firefox has detected that the server is redirecting the request for this address in a way that will never complete.
This problem can sometimes be caused by disabling or refusing to accept cookies.
The URL is doing some kind of infinite loop: index.php/en/index.php/en
Thanks
Adam

Hello,
We can investigate the problem if you provide a link to a page where we can see it and a temporary access to your J! backend by email.
