Hi,

All I did everything the same sample. ARI Quiz Lite

But the test does not open when you enter the quiz page.

If I need to give examples,

My Quiz Page (TITLE)
Personnel Quiz (Quiz Name)
www.domainname.com/quiz (Personnel Quiz's Link)

What do I need to do to run?

Thanks in advance. :)

I think I have solved the problem. To edit the link I had set up Artio sef. I disabled ArtioSef Module and and the test worked.
