
User Quiz stops, won't proceed to next quiz.

Posted by dynamicw - 2010/03/09 16:55

The following site, www.blazemastertraining.com, is having problems with a couple of users who are unable to proceed forward after taking a quiz. User (A) is stuck on quiz three and User (B) is stuck on quiz five. There are 7 quizzes total.

Please let me know what you need to help.

Regards,

Frank

Provide the steps how to reproduce this issue or SQL dump of the component's tables by email that we can reproduce this problem on our test server.

Regards,
ARI Soft
