How to remove \'Choice\" label -ARI Quiz v.3.3.0
Posted by Timbonumber5 - 2012/11/21 13:21
_____

Hi. What is a good method for hiding or removing the "Choice" + number label from ARI quiz version 3.3.0? i.e "Choice 1", "Choice 2", etc..

I've looked through the forums and found fixes for ARI Quiz Lite and older versions of ARI quiz but the view / template files appear different. I've also tried doing a text search on a copy of the component I copied to my local computer and can't seem to find any files that correspond.

I've tried styling these labels with CSS to hidethem but they don't seem to hide for me.

CSS SOLUTIONS I"VE TRIED:
.ariQuizQuestionLeft label
{
 display: block;
 width: 0px;
 overflow: hidden;
}
doesn't work. still shows the label

.ariQuizQuestionLeft label
{
 background: #ffffff;
 color: #ffffff;
 display: none;
 visibility: hidden;
}
hides the labels from view but does not collapse the space the labels took

----

Any Ideas?

_____

Hello,

Use the following CSS rule:

TABLE.ariQuizAnswersContainer .ariAnswerChoice LABEL
{
 display: none;
}

Regards,
ARI Soft

_____

How can I change it from 'Choice A' to 'A' without the keyword 'Choice'?

_____

Hello,

You can change "Choice" to any other message (or use empty message). Read here how to modify existing or create a new translation.

Regards,
ARI Soft

_____

hi there,
i know how to change Choise to something else, or even to remove, but i dont know how to swap 1, 2, 3 to a, b, c or I, II, III, IV ect.

'll be grateful for your help

_____

Hello,

Use "Additional settings -> Answer enumeration" parameter in quiz settings.

Regards,
ARI Soft
