Compatibility with JckEditor

Posted by mahdidalton - 2013/02/17 09:56
_____

hi,
i have problem with adding questions by jckEditor. if i set the editor to Tinymce everything works correctly, but i want to just use JCKeditor...

the problem is validation on Jckeditor doesn't work and always return empty validate error message.
is there any way to fix this issues without removing the validation code ???

/administrator/components/com_ariquizlite/templates/question_add.html.php
line: 229

   {emptyValidate : true, errorMessage : ''}));

==

Hello,

Replace the following code in question_add.html.php file:

var value = val.getValue();

with the following one:

var value = ;

Regards,
ARI Soft
