Quick Question

Posted by Nick Starbright - 2013/02/20 11:06

_____

Just 2 Things. Just have to say this is a great product. I am happy with it and look forward to upgrading to ARI Quiz soon.

My question is with Ari Quiz lite, is there a way to embed a quiz in an article? If so, I seem to be missing how to do so.

If anyone can help, a million thanks in advance! :)

_____

Hello,

You can use ARI Quiz Lite in Content plugin.

Regards,
ARI Soft

_____

I have installed the plug-in, it works as expected. Now my new question is, after looking through the template css, is there a way to change the background colors of the test template?

On a few of my pages I have a custom template and Ari Quiz Lite is showing up white. I would like to change the color to match the surrounding template area.

Thanks!

_____

Where we can see an article with a quiz?

Regards,
ARI Soft

_____

For example the color of the back ground is gray. I would like to change the color of the ari quiz content area to blue with white text.

I would like to change the background of the quiz area itself.

Thanks!

_____

Provide a link to a page where you use "ARI Quiz Lite in Content".

Regards,
ARI Soft

_____

You can try to use the following CSS rules:

TABLE.ariQuizHeaderTable,
TABLE.ariQuizQuestionTable
{
 background: blue;
 color: white;
}

_____

Okay let me give that a try. Will that adjust the background for all quizzes or just the ones in the content area?
