
Can\'t add more than 1 question.

Hey. When I add first question everything seems ok but after I add second question my quiz still displays only first one. When I try to add third question quiz goes blank and looks like nothing was created. I don't get any errors adding questions. What am I doing wrong?

EDIT: Sorry didn't see there was "ARI Quiz Lite". Could You move it there please.

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?
