## Passed score not working properly

Posted by toms132 - 2013/08/29 08:17

Hi, thanks for the great component!

For example I have 14 questions in my quiz, and every question score is set to 1.

The Passed score is set to 8, but when I try the quiz, I get for example just 5 points, but I receive message, that I have passed the quiz. So somehow its not working.. I want that I can pass the quiz with minimum of 8 points. Im using Joomla 2.5.14

Thanks in advance,

-Toms

Hello,

The parameter accepts values in percent from maximum score. In your case set the parameter to 57 value.
