
Ari Quiz Lite conflict with Nomad

Posted by desau - 2013/10/03 13:26

Hello...I've got Ari Quiz Lite installed under Joomla 3.1.5, and I'm also trying to use the Nomad extension (<http://extensions.joomla.org/extensions/access-a-security/site-access/login-redirect/18772>) to create separate home pages for different user groups. However, when I put a rule in place to do that, I find that pressing "Continue" to begin a quiz redirects me to the home page I've set up. Is there a way to allow the two to co-exist?

Thanks,
Darren

Hello,

Could you provide a link to a page where we can see the problem and a temporary access to your J! backend by email so we can investigate?

Regards,
ARI Soft
