Posted by Barbacouda - 2013/11/05 17:31

Hi, i am trying to use Ari Quiz Lite Component and i have one issue that i cannot understand.

I can create a quiz but when i try to create a new menu item i can't see any menu item type for the component.
I am using joomla 3.1.5 and daily version of Ari Quiz lite component.

Thanks.
Pierre

*Subject modified, joomla in 3.2.0 rc not in 3.1.5 as i wrote.
