Quiz results - filter does\'nt work

Posted by Haberek - 2014/03/24 09:19

_____

Hi

I see that there is a problem in quiz results in Ari Quiz Lite - filter which should restrict the list of quiz results doesn't work (even on your demo page).

http://www.ari-soft.com/images/fbfiles/images/filtr_not_work.jpg

So I don't know if it:
a) doesn't work because there is a bug
b) doesn't work because this is Lite version (if yes so why it is shown here)

I would be grateful for the answer

Best regards

_____

Hello,

Select filter(s) and click by "Filters" button in toolbar.

Regards,
ARI Soft

Oh yes, you are right - I didn't see this button (blindman :/)
Thanks
