Test returns to home page after saving each answer

Posted by olderthanwiser - 2014/04/30 20:28

_____

My site is www.personhoodus.com I have a quiz setup in the column on the top right (picture of smiling baby). The link correctly takes me to the beginning of the test, but after answering it takes me back to the home page after each question.

I am running Joomla 3.2.2.

What am I doing wrong? :(
