Error: number of questions is limited
Posted by totetite - 2014/06/09 14:56

_____

I use ari quiz lite and create a quiz with 40 questions.
The front end show only 8 questions. After I modify some questions, it now shows only 5 questions in front-end.
I make another quiz with 9 questions, it shows only 6 questions in front-end.

I see that there is no limitation in number of questions.

Please help me how to fix it.

Thanks in advanced

_____

Hello,

Complete previous quiz session and start a new one.

Regards,
ARI Soft

_____

I did as you said, but the result is the same. The front-end shows only 5 of 40 questions created.

_____

Could you provide a link to a quiz where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

_____

"Question count" parameter is set to 5 in question category settings.

Regards,
ARI Soft
