

Error

Posted by sumer - 2014/06/10 09:00

Error (Selected Quiz not available, contact with Administrator) in firefox but my quize is running well in chrome (i am using quiz lite)

Re:Error

Posted by admin - 2014/06/10 09:01

Where we can see the problem?

Regards,
ARI Soft

Re:Error

Posted by sumer - 2014/06/10 09:03

for demo i am using this on my local pc..and when i click on continue it shows all quizzes

Re:Error

Posted by admin - 2014/06/10 09:04

We need to see the problem so we can investigate it.

Regards,
ARI Soft

Re:Error

Posted by sumer - 2014/06/10 09:10

this the the problem

Re:Error

Posted by admin - 2014/06/10 09:10

We can't investigate the problem by a screenshot. Reproduce the problem on a public server so we can investigate it.

Regards,
ARI Soft

Re:Error

Posted by sumer - 2014/06/10 09:13

where can i found the full configuration of ARI quiz lite,

Re:Error

Posted by admin - 2014/06/10 09:14

What configuration do you mean?

Regards,
ARI Soft

=====

Re:Error

Posted by sumer - 2014/06/10 09:18

every option and what they dose for example(total question count,total time)and specially active checkbox

=====

Re:Error

Posted by admin - 2014/06/10 09:19

Documentation is available on "Help" page on component backend.

Regards,
ARI Soft
