
Result not find out

Posted by chafizpaugustfazny - 2014/07/23 07:09

Hi everyone,

i get some trouble here,
i already install the Ari Quiz component,
then i answer all question, then on part of result, there`s nothing find out ...

when i inspect element, only showing this code :

any advice ?

Regards,
Chafiz

Hello,

Send a link to a page where the problem occurs.

Hi,

i can`t send the link, because its internal server (intranet), just for my office

any advice ?

Check that text templates are selected in "Successful Template" and "Failed Template" drop-downs on quiz settings page.
