
Countdown in minutes instead of seconds

Posted by Daws - 2014/09/04 10:16

Hello, I set up a time limit quiz (30 minutes) is it possible to display the quiz countdown in minutes (30) instead of seconds (1800)?

May I modify any php or configuration file?

Thank you

Daws

Hello,

The extension can show this time only in seconds. "ARI Quiz" shows hours, minutes and seconds.

Regards,

ARI Soft
