\'Preview\' button single user Result page 404 error
Posted by luca.c - 2014/12/03 15:03

_____

Hello, in the 'view' page of Results for one user, where all responses to questions for one user are listed, clicking the 'Preview' button leads to a 404 error page.
I thought 'Preview' would be a summary page of all the answers of that user..
Am I wrong?
Thank you
LC

Hello,

Could you provide a link to a page where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?
