How to change the \"save\" button to something else?
Posted by Jimbo - 2015/08/18 02:28

_____

Hi I want to change the "Save" button to "Next".I have read about looking \language\en-GB\en-GB.com_ariquiz.ini file,but I do not have that ini. file when I follow that path. I have read also "\components\com_ariquiz\views\question\tmpl\default.php is a template file for quiz questions page". When I follow that path,I cannot find the "question" part. Please could you tell me if it is possible to change the text on the "save" button in ARI Quiz Lite and how you do it,as I've spent along time trying but can't do it.Many thanks for any help

_____

Hello,

\language\en-GB\en-GB.com_ariquiz.ini file is used by "ARI Quiz" extension. Open "Components -> ARI Quiz Lite -> Languages Frontend" page on Joomla! backend for "ARI Quiz Lite".

Regards,
ARI Soft

_____

Hi thanks for your response.I didn't think of looking in Joomla and instead went through all the files on my server.I have found Components -> ARI Quiz Lite -> Languages Frontend in Joomla and I have made a new one and deleted the old one and set it as default.I then cleared the cache, but the "save" button is still there not my new "Submit Answer".I'm now pulling my hair out,what have I done wrong?

_____

Could you provide a temporary access to your Joomla! backend by email so we can investigate the problem?

Regards,
ARI Soft

_____

Try now. The language was not selected as a default language.

Regards,
ARI Soft
