
Send Result To Email doesn't work

Posted by adolcini - 2015/08/21 21:27

Hi I installed this great module on my website, the problem is that if I specify an e-mail in the "Send Result To Email" field, (quiz Additional Settings) no mail has been sent and the module shows the error 404 page.

Have you any idea ?

Thanks
Andrea

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem?
